Professional Summary

As a self-driven, highly motivated, and inquisitive individual with a genuine love for technology and a thirst for knowledge, I thrive in fast-paced environments and adapt quickly. I am an entry-level professional with a strong foundation in cyber security, soon to graduate from the Masterschool Cyber Security Program. My hands-on experience in network security, ethical hacking, and incident response has honed my problem-solving skills and communication abilities. Eager to learn and grow, I actively pursue certifications and engage in capture the flag events to stay updated. I am now seeking opportunities as a SOC Analyst or Junior Penetration Tester, aiming to contribute my skills and passion for cyber security while growing professionally within a supportive organization.

Skills

- Server Administration
- Linux
- Project Management
- Information Auditing
- Web Development
- Risk Analysis
- Procedure documentation
- Problem-Solving

Experience

- Developer

Monkey Bear Studios

July 2019 - Current

 - Improved gaming experiences through innovative ideas and the development of mods and mod frameworks for renowned video games like Grand Theft Auto 5, Red Dead Redemption 2, and RUST.
 - Executed seamless integration, compatibility, and optimal performance of mods on both private and public servers worldwide (Windows and Linux).
 - Designed anti-cheat frameworks, improving many game servers and safeguarding fair play and integrity within the gaming community.
- Project Development Manager

Nova Network

January 2019 - October 2022

 - Achieved the successful creation of innovative projects in the crypto/blockchain web3 space.
 - Founded NFT marketplaces and Decentralized Exchanges (DEX), driving advancements in these domains.
 - Oversaw the entire project lifecycle from conceptualization to implementation, ensuring seamless execution and delivery.
 - Coordinated closely with cross-functional teams to facilitate efficient collaboration and ensure the timely delivery of high-quality platforms.
- Security Officer

JBM Patrol & Protection Corp, Madison, Wisconsin

April 2018 - February 2019

 - Safeguarded building users by conducting thorough screenings of vehicles, staff, and visitors.
 - Generated detailed reports on security incidents, observations, and any unusual activities, while meticulously logging security activities for essential operational reports presented to management.
 - Demonstrated effective communication with team members, ensuring the strict adherence to security protocols and the protection of people and properties.
 - Enforced stringent security measures, making significant contributions to the overall safety and security of government and corporate facilities.
- Customer Experience Manager

OfficeMax, Janesville, Wisconsin

January 2017 - April 2018

- Provided guidance, support, and training to elevate the team's performance, while working closely with management to implement strategies aimed at enhancing the overall customer experience and driving sales growth.
- Diagnosed and effectively resolved numerous computer-related issues, performing repairs, upgrades, and offering technical support to customers.
- Provided significantly improved customer satisfaction and boosted computer services sales by an impressive 50%.
- Demonstrated exceptional technical and analytical skills, coupled with a steadfast dedication to ensuring customer satisfaction.
